

Google Calendar for Quick Base

Organize Your Schedules with Google Calendars

Integrate the power of your Quick Base application with Google calendar so that **appointments, tasks, and activities** can be managed leveraging the web's most popular online calendar. We allow you to associate your Quick Base records to as many individual calendars as needed. This allows for **viewing one, many or all** of your team members calendars.

Enable reminders and agendas to be sent to you via email. You can also take advantage of integration with your smart phone to see your respective events on your mobile device.

And don' forget to take advantage of all of the extensions, tools and add-ons available for Google Calendar to make your database system a more powerful event/activity management application.
