

Partnering with InterFAX, we now offer a reliable secure fax platform for seamless document transmission. Simply create an InterFAX account, and easily connect your application to start sending faxes directly from your Quickbase app. Achieve the highest delivery success rate in the industry, while fully meeting HIPAA and PCI DSS compliance.

Key Benefits:

Secure and Compliant Faxing

HIPAA and PCI DSS certified, ensuring secure transmission of medical information. Experience unmatched security, reliability, and speed.

Stay in Loop

Confirm and keep track of the transmission status of all your faxes.

Outbound & Inbound Faxing

Send outbound faxes on a schedule or with a single click, while capturing inbound faxes and placing them directly into a table in Quickbase.

Product Features:

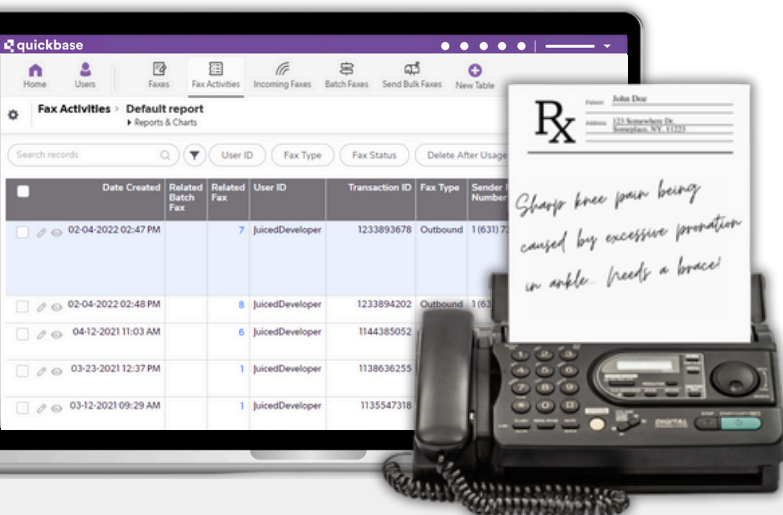

- Get a custom fax number for faxing documents.
- Send faxes directly using Quickbase files.
- Ensure successful fax delivery with Secure Fax.
- Log all your faxes.
- Reliable and trustworthy integration with our partner, InterFAX.

Commonly Paired Add-Ons:

- **Exact Forms Plus:** Generate Word or PDF documents to faxed.
