

# Exact Forms Plus

Create custom MS Word and PDF documents using data from Quickbase with a single click.

Known as the premier document generation tool for Quickbase, Exact Forms Plus allows you to effortlessly create persistent, point-in time MS Word or PDF files using data directly from Quickbase. With just a single click, you can generate one or many documents, saving you tons of time and ensuring consistency throughout.

## Key Benefits:

### Create & Maintain Templates in MS Word

By leveraging MS Word's familiar UI, Exact Forms Plus is able to maintain a limited learning curve.

### Spend Less Time & Achieve Better Results

Exact Forms Plus ensures all of your documents are polished, professional and consistent.

### Generate Multiple Documents at Once

Generate many documents at once, condensing hours of manual effort into a single button click.

## Product Features:

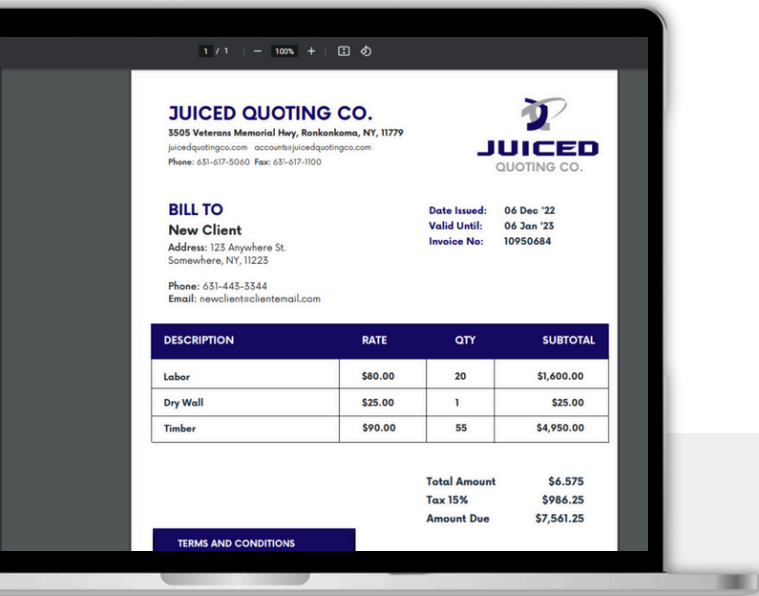

- Create a single, merged PDF from multiple records in your application.
- Add fields from your Quickbase application to your documents
- Secure your documents with passwords & watermarks.
- Include barcodes/QR codes in your documents.
- Save your documents in Amazon S3 or Dropbox.

## Commonly Paired Add-Ons:

- **JuicedSign:** Route Exact Forms Plus documents for electronic signature.
- **Courier:** Email your documents to stakeholders from directly within Quickbase.
- **Package Builder:** Automatically consolidate various file types into one cohesive PDF.

## Commonly Generated Documents:

- ✓ Invoices
- ✓ Requisitions
- ✓ Contracts
- ✓ Reports
- ✓ Proposals
- ✓ Summaries
- ✓ Quotes
- ✓ Agreements
- ✓ Statements
- ✓ Estimates
- ✓ Request For Information (RFI)
- ✓ Purchase Orders
