

EZ File Importer

Easily Import Data into Quick Base

EZ File Importer is our latest add-on to help you import data from any Excel based spreadsheet into one or many table(s) in Quick Base. No longer do you need to worry about how the fields will be "lined up" as with the standard Quick Base import process. All you do is define an import configuration for each table you need to import into, (these can be saved and used again and again), then upload a file to a record in an Import table, Click the "Import Data" button and the import occurs automatically according to your configuration settings.

	A	B	C	D	E	F
1	Application Closing Details		Selected	Damaged Residence Street		Applicant Name
2	983456 View		3	303 ROCK HILL,11722		James, Cam
3	983457 View1		2	304 BRUNSWIK,11733		Cinderalla, Thomson
4	983458 View2		7, 8	305 ALEXANDER BUILEVAD,1		Monica, Chandler
5	983459 View3		3	306 CROSS STREET,11755		Ted, Mosby
6	983460 View4		5, 6	307 ROBERT MOSES,11766		Barney, Stinson
7	983461 View5		3	308 SYCAMORE AVE,11788		Bill Baker
8	983462 View6		2	309 BRUNSWICK ROUGE,117		Mark Mathews
9	983463 View7		4, 5	310 RICHARDSON SPRINGS,1		Sara Simpson
10	983464 View8		3	311 DRDENHAM SPRINGS,11		John Greesham

Highlights of the EZ File Importer

- ✓ Easy to configure - add field mappings of your Excel spreadsheet columns to field(s) in each Quick Base table that you want to import into
- ✓ Importing is as simple as saving your file into a file attachment field
- ✓ Our import process will either insert or update records (based on the key) in the **target** table
- ✓ An Activity table is also installed in your app to monitor details of each import
